Re: Review Emissions Calculation Methodology

Dear Richard,

Please accept this letter as confirmation that RDC Aviation emissions calculation model has been reviewed concerning its general robustness and accuracy.

As a result of the review, the approval body is confident that the calculations are reasonable and consistent with the literature value referenced. The only purpose of this letter is for the emission calculation methodology use by any potential carbon offset provider applicant in the Quality Assurance Scheme for Carbon Offsetting. Hence, AEA cannot be held liable by any party for decisions made or not made based on the review, which will go beyond that purpose.

Yours faithfully

Daniel Waller

For and on behalf of the Quality Assurance Scheme for Carbon Offsetting
